Model 733-002 24 V DC Single-Party Non-metallic Amplifier Enclosure

General Information

This data sheet applies to the GAI-Tronics Model 733-002 24 V dc Non-Metallic Single Party Amplifier Enclosure.

This enclosure is intended for 24 V dc input within a single-party 700 Series Page/Party® system. The enclosure is constructed of glass-reinforced polyester, making it extremely weatherproof and corrosion-resistant. It is equipped with terminal strips for connecting system cable. The 701 and 751 Series Amplifiers mate directly with this enclosure.

Specifications

Model 733-002 24 V DC Non-metallic Weatherproof Single Party Amplifier Enclosure

Construction/Finish.....	Glass-reinforced polyester, J-hook latch, hinged door with gasket
Mounting.....	Wall, column, or pole (mounting kit required for pole mount), four 7/16-inch mounting holes
Connections	Internal screw-type barrier terminal blocks
Dimensions	14.6 H × 10.9 W × 10.5 D inches (371 × 276 × 267 mm)
Shipping weight	9.6 lbs. (4.4 kg)
Approvals.....	NRTL Listed for USA and Canada Class I, Div. 2, Groups A, B, C, D; Class II, Div. 2, Groups F and G; Class III, Div. 2
Outdoor environmental rating.....	Type 3R; Type 4X with door closed
